

Some Events, Event in Transit, as a Concept (Totalisation)

By Shomit Sirohi

I. Events Happen – Alain Badiou’s Wager

In fact Events happen, even in personal life, in the order of the real, Events happen. One might argue what is this process of Events, that one can just be swept by lovers in my case, and live for hotel management in Paris by De Gaulle.

In fact Algeria is the simple plan of – Housing, Algeria, Paris, Delhi and Havana, with Mao in Chinese French style.

All of this is names, worlds, houses.

II. Interpreting Prophetic Democracy in this Sense – America, Algeria, Cuba and India, some China and some Europe, the happy find Argentina

In fact jazz is alive again, I am alive forever with Sirohi’s miracles of healthcare recovery, theory and practice – I mean he is also following biology for us, he is interpreting culture – giving black people a house which is expensive and like Franciscan Christian organic Greek, with in fact all of this being a high interpretation of Events, some Events and Events in transit –

- A. Living Events.
- B. Jazz, and rap.
- C. Names, cultures, places.
- D. Curation
- E. Women’s sexuality and psychoanalysis.
- F. Black rights.
- G. Communism.

All like lines of flight – lignes de fluit – imagine catching a flight from America and making it to a free of racism India, with all things ordered in a syntactical development of black, white, brown and Japanese even finally creative events.

Lists are just observations, events are simply freedoms.
